

SHANGHAI OCEAN UNIVERSITY

上海海洋大学 食品科学与工程国际夏令营

International Summer School of Food Science and Engineering, Shanghai Ocean University

HOST INSTITUTION

College of Food Science and Technology

Shanghai Ocean University is a multidisciplinary applied research university, jointly established by the Shanghai Municipal Government, the State Oceanic Administration and the Ministry of Agriculture and Rural Affairs, and selected into the national "double first-class" construction list.

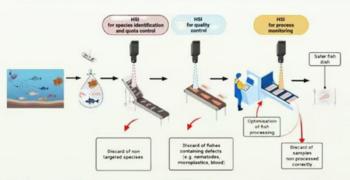

The School of Food Science adheres to the school motto of "Diligence, Simplicity and Loyalty", based on the aquatic food, and undertakes the mission of "Double First-Class" construction of Shanghai Ocean University. The mission of Food Science is to conduct cutting-edge research, provide scientific innovation in the fields of high-quality processing and utilization of aquatic products, food quality and safety.

PROGRAM OVERVIEW

Food technology is reshaping the future of the global diet with its innovation and sustainability, and significantly improving food production efficiency and resource utilization through intelligent equipment and bioengineering. In the face of global challenges such as resource scarcity, food technology is becoming a key support for achieving the Sustainable Development Goals.

In recent years, remarkable progress has been made in basic and frontier technologies in the field of food science and engineering. Relying on three innovative teams, the School of Food Science and Technology of Shanghai Ocean University has achieved breakthrough results in areas such as high-quality processing of aquatic products, food cold chain and quality control, food safety and nutritional health, such as surimi product processing technology, functional antibacterial packaging film technology, and photodynamic broad-spectrum sterilization mechanism, providing important support for the high-quality development of the global food industry.

High-quality processing of aquatic products

Food cold chain and quality control

Food safety and nutritional health

This course takes advantage of the disciplinary strengths and international cooperation experience of SHOU. Through a four-dimensional linkage model of "theory - practice - industry - culture", it includes basic theory learning, practical skills learning, visits to experimental bases, visits to food enterprises, and activities to perceive Shanghai, etc. The aim of this course is to impart core knowledge focusing on the cutting-edge of food science and engineering to students from all over the world, enhance their ability to transform theories into industrial technologies, and expand their diverse understanding of regional characteristics and international cooperation in the food industry.

PROGRAM DETAILS

(7)

PROGRAM DETAILS:

1st July - 15th July

LOCATION:

Shanghai Ocean University (Lin-gang Campus)

3

LANGUAGE OF INSTRUCTION:

English

4)

COURSE HOURS:

9:05 AM - 11:40 AM, 1:45 PM - 4:20 PM

實忠樸勤

PROGRAM HIGHLIGHTS

Food cold chain and quality control, high-quality processing and utilization of aquatic products, food safety control, nutrition and health, etc.

Rapid detection of food safety; Aquatic products processing products, surimi products production, etc.

Visit the experimental base enterprises in Shanghai.

SITE VISIT

Write the final summary report.

FEES & SCHOLARSHIPS

As a scholarship program financed by the Chinese government and SHOU, the program exempts the selected students from tuition, accommodation, cultural experience and other expenses. The applicant only needs to bear the expenses related to international travel and visa application, and can enjoy the "zero burden" experience of further education.

APPLICATION

APPLICATION ELIGIBILITY

- Healthy and sound non-Chinese nationality postgraduate candidates who interested in food science and Engineering.
- 2 IELTS>6.0 TOEFL>80 Native or official language is English

APPLICATION

A Complete the form

B

Upload the required documents

REQUIRED DOCUMENTS

-01-Passport copy -02Physical
Examination

-03Personal Photo
(one inch)

-04-Personal Resume

-05Employment or
Enrollment
Certificate

-06Non-criminal Record
(documents provided
by the local police or
the dispatched school)

-07Language
Certificate (IELTS,
TOFEL or other
certificates)
