

## Professor Abidur Rahman's Recognition as One of the World's Top 2% Scientists

**Iwate University, Morioka, Japan – October 4, 2024 –**

Professor Abidur Rahman of department of Plant Sciences, Faculty of Agriculture, Iwate University, has been recognized as one of the top 2% scientists in the world by Stanford University and Elsevier for consecutive years 2023 and 2024.

The Stanford/Elsevier list, which identifies the top 2% of scientists worldwide, is based on rigorous analysis of various metrics, including citation impact and research output. Being included in this list signifies that Professor Rahman's work is not only highly influential but also essential to the advancement of scientific knowledge.

"I am deeply honored to be recognized among the top 2% of scientists globally," said Professor Rahman. "This achievement reflects the collaborative efforts of my colleagues and students at Iwate University, and I am grateful for their support and dedication."

This recognition not only brings honor to Professor Rahman but also highlights the exceptional research environment at Iwate University. The university remains committed to fostering a culture of academic excellence and supporting its faculty in their pursuit of groundbreaking research.
