

East Japan Earthquake 10th Anniversary Forum

Ten Year Path of the East Japan Recovery: A Comparative Perspective

As of the 10th anniversary of the East Japan Earthquake and Tsunami that hit the Sanriku coastal area in March 11, 2011, this symposium aims at giving back the result of academic interactions between the disaster affected universities in East Japan, Kobe, and many other parts in Asian region, with a common goal to induce lessons for the disaster resilient and social welfare oriented future.
